Northern Hospital Expansion

I am so happy to announce that the world-class extension of the Northern Hospital in Epping has begun.

I was so proud to be at the site of this incredible project on the 24th of April with Jill Hennessy the Minister of Health, as well as other locals MPs for the turning of the sod. It is more than vital for our community to have access to great healthcare and utilities.

Our community is one of the fastest growing, and upon completion of the \$162.7 million project an additional 10,000 patients will be able to be treated each year.

The extension will provide 4 new floors on the 3 floor building, 96 new inpatient beds, three operating theatres and more treatment rooms.

The project also brings about 66 new construction jobs during early works and 489 overall which will be a great boost for the economy.

Left to right: Colin Brooks MP, Bronwyn Halfpenny MP, Jill Hennessy Minister of Health, Danielle Green MP, Lily D'Ambrosio MP and Frank McGuire MP

Completion of the extension is due for 2021, and this couldn't come at a better time with the Northern Hospital currently seeing more than 365,000 people through the doors.
